

# 162.1 & 163.0 Release Notes

17 December 2021

# Contents

## 162.1

### Issue Resolutions

- Users experiencing delayed exports

## 163.0

### Enhancements

- Enhanced Search
- Add full set of circular progress icons to Icon/Name Pick List options

### Issue Resolutions

- Can't switch to bulk edit when including a Pick List created from the data tab
- Clearing out numeric decimal places setting via Form causes issues editing attribute via Data Page
- itemViews query broken on GraphQL

# Enhanced Search

## Summary

- Previously, users could find content using the Search option on the Navigation Sidebar.
- While functional, the interface showing the search results was not as clean and intuitive as users would like.
- Now, as part of our overall user interface improvement, we've enhanced the Search capability and the results interface.

## Applicable to

- Search on the Navigation Sidebar

## Additional notes

- No set up required.
- To launch the Search bar, either click on the Search icon in the Navigation Sidebar or use the short cut keys: control+k (Windows) or command+k (Mac).
- Start typing into the Search bar and press Return on your keyboard or click the Search icon to see results.
- Search results are grouped and counted by type. Click on a group name to see search results of that type.
- If there are more than 25 results of a single type, results are paginated.

The screenshot displays the XYZ EPMO search interface. At the top, the search bar contains the text 'process'. Below the search bar, a list of search results is shown, including 'another process (9100)', 'Automated Process (82)', 'Cofigure As-is Process (926)', 'Develop Process Design Document (PDD) (929)', and 'Develop Process Design Document (PDD) (927)'. Each result includes a breadcrumb trail showing the hierarchy of the document. On the right side of the search results, a summary box indicates '27 results for process' and '5 BT Initiative results'. Below this, a list of results is shown, including 'Improve financial processes (8481)', 'Onboarding process (877)', 'Onboarding process (8309)', 'Standardize Business Processes (84)', and 'Standardize Business Processes (8372)'. The background of the screenshot shows a dashboard with various charts and data points, including a bar chart titled 'In Year Program Value' and a line chart titled 'FORECASTED BENEFIT \$74.68M'.
