### 193.0

#### **Enhancements**

- Align Card section and Achievement Card section styles
- Icon no longer required to be displayed in Card section

#### **Issue Resolutions**

 Limit the number of items that can be deleted in one request to 250

# Align Card and Custom Achievement Card Styles

#### **Summary**

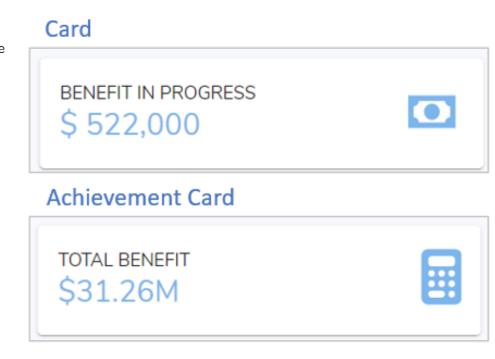

- Previously, we introduced the easy-to-configure Card section to be used in place of the custom Achievement Card for certain value displays.
- Admins wanted the ability to utilize features of both the Card and Achievement Card sections on the same layout, but there were minor visual differences between the two sections that made this undesirable.
- Now, we have aligned the style of the Card and the Achievement Card sections so that the sections can be placed side-by-side on a layout.

#### Applicable to

· Card, Achievement Card

#### Set up

 No new setup required for either the Card or Achievement Card section.

## **Resolved Issues**

For Shibumi Customer and Partner Use Only.

Release		#	Issue
192.1	*	9582	Unable to save slide titles in presentations
193.0	*	9575	Limit the number of items that can be deleted in one request to 250
